Course Outline

This package includes these courses

- Project Management Level I: Initiation & Planning (6 Hours)
- Project Management Level II: Execution, Controlling, & Closing (6 Hours)

Project Management Level I: Initiation & Planning

The course begins with an introduction to project management as a science. Students will obtain a firm grasp of different methods and strategies used in the field of project management. Moving deeper into project management theory, students will explore a Planning phase, where a large degree of project success is determined. The last part of the course is a facilitated discussion on project managers and what it takes to become a successful one.

Project Management Level II: Execution, Controlling, & Closing

In this Advanced Project Management course, students delve deeper into project management concepts include task analysis, critical path method, planning, project timelines, and ongoing monitoring. Students will review the five phases of project management, examining the complexities of each stage.
